Writing

"Where there is a will there will be a way" is a famous quote that most of us have heard. I suppose that it means that if a person strives to achieve something, he will not be intimidated by others and will complete his goal.

sp There are some examples that might illustrate this quote.

For instance, my friend had a goal to buy a new phone for himself on his own money. There were a lot of people who did not believe in him. But he put a huge amount of effort in earning money and, finally, was able to buy a new phone.

sp Moreover, one of Nikolay Gogol's characters had a courage to buy himself a new coat. And he managed to complete his aim, bearing in mind all the ordeal that he experienced during that period of time.

gr All in all, in my opinion the quote "Where there is a will there is a way" means that the person who has a passion to make his dreams come true will always find a way to overcome all disadvantages and achieve them. I am of the opinion that this quote is right and that it shows that everything is possible no matter what the circumstances are.
